Satisfaction™ is pumped from our specially-designed pump bottle onto your fingertips. With one pump, you will feel a warmth and tingle on your clitoris when your creme is applied. Typically, you will experience the optimum effect of Satisfaction™ within ten to thirty minutes after your application, but this varies with each individual woman. The tingling, warm sensations of Satisfaction™, in combination with the physical stimulation of your clitoris before and during intercourse, will lead to heightened pleasure for you with enhanced sensations, increased lubrication, and more rapid and intense orgasms.

### **Satisfaction Costs A Fraction of Other Sexual Enhancement Creams!**

Satisfaction™ is prepared in convenient one-ounce bottles with our custom, one pump delivery system. Unlike other creams that deliver single doses for up to \$11.95 per dose, **Satisfaction™ costs only \$19.95 per bottle during our special introductory offer. Each one ounce bottle holds up to 20 - 30 applications depending upon personal usage.** (One bottle of Satisfaction™ is equivalent to 15 "pillows" of the other creams now selling at \$129.95 for only 12 pillows!!!!)

### **Why Satisfaction is the Best Sexual Enhancement Cream on the Market!**

We believe the specially compounded formulation for Satisfaction makes it **the best women's pleasure enhancer on the market** and here's why -

- \* The inclusion of our natural progesterone cream, means Satisfaction is balancing your hormones which will lead to improved libido!**
- \* The Satisfaction formulation includes 2x the amount of L-Arginine found in other leading sexual enhancement creams in order to further improve your results!**

**\* Methyl Nicotinate, a vasodilator, dilates the blood vessels for quicker, better absorption and a warming sensation**

**\* Satisfaction has been carefully pH-balanced to pH of 4 to ensure that there will be no irritation! (Most creams have a neutral pH or the formulators haven't considered this issue, resulting in irritation and burning. Make sure that any cream you use has the proper pH balance!)**
